Prospective Applicant Webinar:

The Mark Etzel Patient-Centered Medical Home Demonstration Project Research Award

California HIV/AIDS Research Program

University of California

March 11, 2010

Peter Agron, Ph.D.

Bart Aoki, Ph.D.

John Mortimer, Ph.D.

CHRP California HIV/AIDS Research Program

Outline

- **Call for Applications Overview**
- **Organization and Purpose**
- **Eligibility Requirements**
- **Proposed Use of Funds**
- **Mechanisms of Support**
- **Merit Review Process**
- **Application Information**
- **Questions and Answers**

California HIV/AIDS Research Program

Call for Applications Overview

- **Summary Purpose**
- **Funding Tiers**
  - Urban County – Tier I. $750,000 to $1,200,000 for 36 months in direct costs.
  - Rural County – Tier II. Up to $300,000 for 36 months in direct costs.
  - Sites in rural counties eligible to apply for Tier I if meet eligibility requirements for *Populations Served*.
  - Indirect Costs. Up to 25% for non-University of California Applicants.

California HIV/AIDS Research Program

Organization and Purpose

- **Organization of the initiative: Role of UCSF**
- **Focus of research**
- **Research rationale and framing**
  - PCMH model components and activities

Eligibility Requirements

- Single Institution vs. Lead Institution and consortium of agencies
- Funding Tier exemption: rural counties can apply for Tier I if meet the Population Served requirement.
- Consortium as a whole can meet requirements.
- Populations Served: persons currently served.
- Participants represent populations most highly impacted by HIV, particularly those with a history of health disparities and inequities in accessing HIV services, and/or over the age of 50.
- Documentation required in the application, not in the LOI.
- Electronic Health Record system requirement.

California HIV/AIDS Research Program

Proposed Use of Funds

- **Research Collaboration**
  - 30% of direct costs reserved for data collection and analysis.
  - Example for 3/yr grant:

    $900,000 Total Direct Costs

    270,000   30% Reserve for Data Collection and Analysis

- **EHR Systems**
  - Single Institutions
  - Consortium
  - Transitional Protocols

Proposed Use of Funds

- **PCMH Model Development**
  - In addition to electronic exchange of information.
  - **Does not** include funding for patient care or prevention.
- **Dissemination**
- **Participation in Collaborative Meetings**

Mechanisms of Support

- The project start date is September 1, 2010, and the project period will span 36 months (3 years), ending August 31, 2013.

- It is the intent to fund at least one meritorious Institution or Lead Institution and Consortium each from Northern and Southern California.

- Intent to ensuring a sufficient sample size with demographic diversity.

- Grants are one-time, non-renewable grants.

CHRP California HIV/AIDS Research Program

Merit Review Criteria

- Experience and capacity to collect relevant data and collaborate with researchers.

- Documentation of meeting the eligibility requirements outlined in this Call for Applications.

- Capacity and readiness to implement proposed activities.

- Qualifications and experience in providing various components of a PCMH for persons with HIV/AIDS or other chronic diseases.

- Feasibility of the proposed plan to establish and/or improve the electronic exchange of health information with other providers in an effort to increase access to services, improve health outcomes, and enhance service coordination for the HIV/AIDS population identified to be served.

Merit Review Criteria Cont.

- Feasibility of the proposed capacity building plan and likely effectiveness in strengthening a PCMH for the HIV/AIDS population identified to be served.

- Inclusion of populations most highly-impacted by HIV, particularly those with a history of health disparities and inequities in accessing HIV services and/or those with HIV/AIDS over the age of 50.

- Extent to which the results will contribute to advancing PCMHs that can be replicated in California and how results will be disseminated.

CHRP California HIV/AIDS Research Program

Important Dates

- **March 23: LOI due before noon, Pacific Time**
- **April 30: Applications due before noon, Pacific Time.**
- **Mid-July: Funding notification**
- **September 1: Award start date**

Letters of Intent

- **Required as a prerequisite for all applications**
 - **Reviewed for Eligibility/Responsiveness to the Call**

TIPS:

- **Follow the instructions**

- **NO proxy applicants; HOWEVER it is simple to enable access to assistants or colleagues for collaborating.**

- **Applicant and others given access must first register**

- **Applicant/Lead Applicant institution must have an Institution Profile (including Federal Tax ID)**
